Relazione

Il questionario utilizzato per la rilevazione delle opinioni dei dottorandi di ricerca è stato prodotto sulla base della bozza fornita dall'ANVUR. Il questionario, organizzato in due sezioni principali (sezione A "indici qualitativi" e sezione B "indici quantitativi"), consta di n. 43 domande in lingua inglese ed è stato somministrato ai dottorandi dei cicli 36, 37 e 38, raccogliendo le risultanze in forma anonima attraverso la piattaforma Microsoft Forms.

Il questionario ha esplorato aspetti relativi a didattica, formazione, esperienza all'estero, supporto finanziario e organizzativo, disponibilità di spazi e strumentazioni per la ricerca e gestione delle procedure amministrative.

Il questionario, somministrato in data 26 ottobre 2023, ha registrato un tasso di risposta del 93%.

In relazione ai punti di forza, emerge che il Dottorato di Ricerca prevede un'attività di formazione e di training in lingua inglese che complessivamente registra un tasso di soddisfazione da parte dei dottorandi del 76%. Per quanto concerne i periodi di studio e ricerca all'estero, si registra un tasso complessivo di soddisfazione del 68%. Inoltre, il 64% dei dottorandi dichiara che le aule e i laboratori di ricerca sono adeguati, mentre il 76% dichiara che gli spazi riservati ai dottorandi sono adeguati. Infine, l'80% dei dottorandi ritiene che la valutazione in itinere e di fine anno sia utile per monitorare lo stato di avanzamento delle attività di ricerca.

In relazione ai punti di debolezza, non si evidenziano particolari criticità. Tuttavia, emerge che il 32% dei dottorandi ritiene insufficienti i servizi bibliotecari mentre il 20% non ritiene adeguate e facilmente accessibili le attrezzature di ricerca. Infine, il 28% dei dottorandi non risulta soddisfatto del supporto fornito dal personale amministrativo.

Infine, dal questionario emerge che l'80% dei dottorandi ha espresso un elevato grado di soddisfazione.

Nelle pagine seguenti si allega una dettagliata analisi delle risposte dei dottorandi.
